NGUYEN PHI TUAN AN

Software Engineer (Frontend / Full-stack)

0927183879 nptatdt@gmail.com Tan Phu district, HCM City

OBJECTIVE

Software Engineer with 4+ years of experience in frontend and full-stack development, specializing in React.js ecosystem and modern web applications. Experienced in building scalable UI systems, collaborating with cross-functional teams, and delivering business-oriented solutions in enterprise environments. Passionate about improving product quality, developer experience, and engineering efficiency through automation and clean architecture.

SKILLS

Frontend	React.js, Redux Toolkit, JavaScript (ES6+), TypeScript, TailwindCSS
Backend	Node.js, Express.js, REST APIs
Database	MongoDB
Tools & Platforms	GitHub, Jira, Postman, VS Code, Netlify, Render

WORK EXPERIENCE

Fujifilm business innovation Vietnam 07/2025 - Present

Senior Software Engineer

- Developed and maintained new features for MFP (Multi-Function Printer) systems with strong focus on Panel UI performance and usability.
- Collaborated closely with cross-functional teams including QA, and embedded engineers to deliver stable and scalable solutions.
- Built internal automation tools and browser extensions that reduced repetitive manual operations and improved team productivity.
- Improved development workflow by standardizing recurring tasks and report generation processes. reducing manual effort by approximately 90%.
- Participated in technical discussions, bug investigations, and feature enhancement planning for enterprise-level applications.

Bosch global software company 04/2022 - 07/2025

Frontend Developer

- Developed and maintained workflow-based enterprise applications built on an internal platform integrated with Jira.
- Worked directly with customers to gather requirements, analyze business needs, and deliver tailored technical solutions.
- Contributed to improving application stability, usability, and maintainability across multiple projects.
- Took the lead in mentoring interns by supporting their technical growth and guiding them through real-world development workflows and team collaboration practices.
- Collaborated with international teams in Agile/Scrum environments.
- Recognized as “Associate of the Month” (Oct 2024) for strong ownership and customer collaboration.

Netcompany 01/2021 - 03/2022

QA/QC

- Performed functional and regression testing for a UK-based audit platform (Sedex).
- Reported and tracked software defects to ensure product quality and release stability.
- Collaborated with developers and stakeholders to validate business requirements.

EDUCATION

Tôn Đức Thắng University (Cross-border study) 2015 - 2018

Computer science

GPA: A (88.7/100)

Lunghwa University (Cross-border study) 2018 - 2020

Computer science

GPA: A (88.7/100)

CERTIFICATIONS

IELTS 6.0	Summer 2017
Lowcode platform Outsystems - Associate Reactive Developer	12/2024

HONORS & AWARDS

Associate of the month (At Bosch)	10/2024

PROJECTS

Play and Share | Full-stack Social Travel Platform

04/2025 - 12/2025

Developer

Kind of project: Self-Project
Team size: 1
Techonologies & Other information:

- Project Description: A social travel platform that allows users to share travel destinations, create trip timelines, manage collaborative trip planning, and split travel expenses with friends.
- Responsibilities:
  - Designed and developed the full-stack architecture independently.
  - Built responsive and interactive frontend interfaces using React.js and TailwindCSS.
  - Developed RESTful APIs and backend services using Node.js and Express.js.
  - Designed MongoDB schemas for user management, travel posts, timelines, and expense tracking.
  - Integrated Cloudinary for image upload and media optimization.
  - Implemented drag-and-drop interactions using DnD-Kit to improve timeline management UX.
  - Created automated cron-job solutions to prevent backend inactivity on Render free-tier hosting.
  - Deployed and maintained both frontend and backend environments.
- Technologies: React.js, Redux Toolkit, TailwindCSS, Node.js, Express.js, MongoDB, Cloudinary, DnD-Kit, DaisyUI
- Deployment platform: Netlify (Frontend), Render (Backend)
- Website Link: https://playandshare.netlify.app/

E-COMMERCE SHOP - JAGERTHEJAGERSHOP

04/2024 - 07/2024

Developer

Kind of project: Self-Project
Team size: 1
Techonologies & Other information:

- Project Description: A full-stack e-commerce platform that enables users to browse products, manage shopping carts, place orders, and perform secure checkout operations. The system also includes an admin dashboard for product and order management.
- Responsibilities:
  - Developed responsive frontend interfaces using React.js and TailwindCSS.
  - Built backend APIs and business logic using Node.js and Express.js.
  - Designed MongoDB collections for products, users, carts, and orders.
  - Implemented authentication and order management functionalities.
  - Built admin dashboard features for inventory and order tracking.
  - Improved user experience for product browsing and checkout workflows.
  - Deployed and maintained frontend/backend services independently.
- Technologies: React.js, TailwindCSS, Node.js, Express.js, MongoDB
- Deployment: Netlify (Frontend), Render (Backend)
- Website: https://jagerthejagershop.netlify.app/

TAMT Wedding - Online wedding invitation

12/2024 - 02/2025

Developer

Kind of project: Self-Project
Team size: 1
Techonologies & Other information:

- Project Description: An online wedding invitation platform providing event information, schedules, location details, and RSVP management for guests.
- Responsibilities:
  - Designed and developed responsive UI interfaces using React.js and TailwindCSS.
  - Implemented smooth animations and modern UI interactions using Motion Dev.
  - Integrated RSVP form handling with SheetDB for lightweight data management.
  - Optimized mobile responsiveness and user experience for event guests.
  - Managed deployment and production release independently.
- Technologies: React.js, TailwindCSS, Motion Dev, DaisyUI, SheetDB

- Deployment: Netlify (Frontend)
- Website:https://tamtwedding.netlify.app/
